

## The British Columbian.

SATURDAY, MARCH 2, 1887.

## LEGISLATIVE COUNCIL.

House met at 3 o'clock. Present: The Hon. Colonial Secretary, Attorney General, Solicitor General, Chief Commissioner, Young, Brew, Ball, Cox, Franklin, Southgate, DeCosmos, McDonald, Barnard, Smith, and Robson. Colonial Secretary in the Chair.

Minutes of previous meeting read and confirmed.

**MESSAGES.**

The Hon. the Presiding Member read two messages from his Excellency the Governor, one upon the subject of Education, and the other giving Returns asked for by Hon. Mr. Young, relative to the Crown Salaries and Crown Revenues of the Colony during the years 1884-5-6, from which it appears that the Crown Revenues amounted to \$187,468 and the Crown Salaries \$136,845, leaving a balance in favor of the Treasury of \$51,163.

**NOTICE OF MOTION.**

Hon. Mr. DeCosmos gave notice that he would move the House into Committee of the Whole to consider what steps are necessary to have British Columbia included in the Confederation.

**ORDERS OF THE DAY.**

The House resumed in Committee of the Whole upon the Victoria Incorporation Bill, which occupied the remainder of the day. This Bill contains 35 clauses, and appears to have been introduced in a very crude state. After making considerable progress the Committee rose, reported progress and asked leave to sit again, and the House adjourned until 3 o'clock on Thursday.

## THURSDAY'S SITTING.

The Council met at 3 o'clock. Present: The Hon. Colonial Secretary, Attorney General, Solicitor General, Chief Commissioner, Collector, Brew, Ball, O'Reilly, Cox, Franklin, Young, Sanders, McDonald, Barnard, Smith, Robson, DeCosmos, and Southgate.

Minutes of previous meeting read and confirmed.

**MESSAGE NO. 12.**

The Hon. the Presiding Member read a message from his Excellency the Governor, transmitting certain papers from the late Assembly of Vancouver Island with respect to the establishment of an Assay Office and Mint.

## ORDERS OF THE DAY.

Hon. Mr. DeCosmos moved, seconded by Hon. Mr. Southgate for an address to his Excellency the Governor praying that a Bill be introduced to establish and regulate a system of Weights and Measures throughout the Colony.

**The Estimates.** The House went into Committee of Supply to consider the postponed item set down for Education. After considerable discussion as to whether the Governor's Message upon the subject of Education should be taken up in conjunction with the Estimates, it was decided to deal only with the Estimates for the present and leave the discussion as to the system of Education for a future day. The item of \$10,000, was accordingly passed, and also a resolution recommending the Governor to pay therefrom the arrears due Teachers &c. on Vancouver Island.

The remaining undispensed of item in the Estimates, the Interior Mail Service, was referred to the following Select Committee:—The Hons. Ball, Trutch, Cox, Sanders, Robson, Smith and Helmcken.

Hon. Mr. Barnard moved that a respectful address be presented to his Excellency the Governor praying that a Bonded Warehouse be established at Yale. The Hon. Member alluded to the great facility it would give to the extensive commercial operations of Yale merchants, and maintained it would involve little expense to the Government. Hons. Messrs. Hamley and DeCosmos opposed the resolution upon the ground that the circumstances and needs of the Colony would not warrant such a measure, and that it would entail great trouble and expense. The resolution was finally withdrawn by consent of the House.

**Victoria Incorporation Bill.** This Bill was resumed in Committee of the Whole, which occupied the House during the remainder of the day.

Council adjourned until 3 o'clock on Friday.

## FRIDAY'S SITTING.

The House met at 3 o'clock yesterday, all the members being present excepting the Hons. Hamley, Pemberton and Barnard.

Minutes of previous meeting were read and confirmed.

**MESSAGE.**

The Hon. the Presiding Member read a message from the Governor transmitting a communication from H. Holbrook, Esq., President of the British Columbia Chamber of Commerce, containing the following resolutions and recommendations adopted at a meeting of that body, held on the 26th February:

No. 1. RESOLVED, That this Chamber considers it expedient to promote by every legitimate means the commercial interests of this Colony; and whereas it is of opinion that nothing can be more conducive to this object than a regular and economical direct steam communication between San Francisco and this Port, touching both ways at Victoria, it would earnestly urge upon the Government the necessity of granting a mail subsidy of sufficient amount to secure such a communication and thus enable passengers and freight from California to have access to both portions of the Colony, the Island and the Mainland, with cheapness, certainty and dispatch.

2. RESOLVED, That in the opinion of this Chamber no alteration should be made in the Customs Tariff, with the exception of the following, intended chiefly as a protection to the agriculturist and manufacturer:—

Oxen, bulls and cows	\$5 per head
Calves, under 6 months old	1 "
Sheep	1 "
Hogs	2 "
Horses, asses and mules	2.50 "
Fir and cedar lumber, rough	3 p m.
" dressed	5 "
Fruit, green	1 cent per lb
Poultry, alive or dead	20 p cent ad valorem
Eggs	20 "
Lard	20 "
Confectionery	30 "
Hard bread	20 "
Rice	15 p lb.

And that in view of promoting trade with Indians and others from the Russian Possessions, provision should be made in the Customs Law to admit Furs and Peltries in an unmanufactured state duty free. And that in the event of the non-abolition of the Road Tolls, a tax or an equivalent be placed upon all goods imported into British Columbia via the Southern Boundary.

That having understood it to be the intention of Government to abolish the collection of Tonnage dues and head-money, the Chamber of Commerce would recommend the immediate removal of these taxes, any continued uncertainty in regard to the Tonnage dues would only tend to prevent the shipment of bulky articles, and so act as an impediment to the opening of the Spring Trade. The collection of head-money on arrival in the colony has long been obnoxious to the people, and decidedly inimical to what we are all most anxious to encourage, immigration.

The communication was referred to the Select committee on the Tariff.

## NOTICE OF MOTION.

Hon. Mr. Robson gave notice that he will on Tuesday next move an address to his Excellency the Governor recommending that four manufactures in the Colony should be allowed to pass over the public highways free of Road Tolls.

## ORDERS OF THE DAY.

**Trades License Bill.** This Bill was referred to the Committee of Ways and Means.

**Medical Bill.** Hon. Mr. Robson moved the 2nd reading of this Bill. Read a second time and ordered to be committed for Tuesday.

**Quartz Mill for Big Bend.** Hon. Mr. Smith moved that the Council recommend to his Excellency the Governor the advisability of offering a premium of not more than \$5,000 to any party who may erect a Quartz Mill in the Columbia District capable of crushing 24 tons of quartz in 24 hours, and a proportionately less sum for a mill of less capacity. After some discussion the motion was carried.

**Gold Fields Bill.** Referred to a select committee. House adjourned until 3 o'clock on Monday.

## GOVERNOR SEYMOUR ON EDUCATION.

The following is a copy of the Governor's message upon the subject of Education:

In fulfillment of a pledge given by the Governor, in the Address with which he had the honor to open the present Legislative Session, he now lays before the Council his views on the subject of Education at the public expense.

It has to refer to two different sections of the Colony, in which the question has been treated in different ways. In Vancouver Island the attempt has been made to make the education of the youth in the Colony a burden on the community. The Governor lays before the Council statements of the present condition of the relations existing between the Government and the Public Schools of the Island, and leaves the question as to indebtedness on the one side, or unreasonable expectations on the other, to be freely dealt with by the Council—one from which the Governor stands aloof. He will merely state that in the opinion of his Predecessor the system was not successful, and that other objects besides the intellectual advancement of the children of the Colony were sometimes allowed entrance into the consideration of the Board of Education.

On the Mainland the Governor has been compelled to acknowledge that the population is yet too small and scattered for any regular system of Education to be established. Where parents have been willing to pay towards the instruction of their children he has, with the consent of the Legislative Council, assisted them from the public funds. The Schools have not been under the direction of the Government, and pupils have been led or sent from those that asked assistance from the public to those enjoying the dignity of independence, or back again as the parents might elect.

The Governor is of opinion that the Colony is not yet old enough for any regular system of Education to be established; nor would he wish, under the present constitution, to press his own views upon the Legislature, though he has no desire to conceal them. He thinks that any man who respects himself would not desire to have his children instructed without some pecuniary sacrifice on his own part. The State may aid the parent, but ought not to relieve him of his own natural responsibility; else it may happen that the promising mechanic may be maimed and the country overburdened with half-educated, professional politicians or needy hangers-on of the Government.

As the Governor is aware that there is no subject upon which more words have been wasted than that of gratuitous instruction and the duty of the governing authority towards the people in the matter, he will at once proceed to consider the relations in which the Government may properly stand towards the parents. In his opinion, all that the State can do is to enable the children to overcome the almost mechanical difficulties which seem to bar their passage over the threshold of knowledge, and having effected this to leave to parental affection and knowledge of individual character the choice of the arms with which the child shall, at a future period, fight the battle of life. It is vain for the State to attempt to drive on an even level the idle and the industrious—the boy of ready aptitudes and him whose brain becomes pained and confused in endeavoring to master the simplest problem. The Governor conceives it to be the duty of the governing power to assist in the giving to all elementary instruction, and then to offer inducements to those who are able to come to the front in the intellectual struggle with their fellow men.

But he will not, while addressing the Council conceal any portion of his thoughts. He believes that the community in which he resides is one where complete toleration in religious opinion exists. It is not therefore, under these circumstances, for the State and its Salaried Officers to interfere with the belief of any one. The Government has not undertaken to prove to the Jew that the Messiah has indeed arrived; to rob the Roman Catholic of his belief in the meritorious intercession of the Blessed Virgin; to give special support to the Church of England; to mitigate the acidity of the Calvinistic doctrines; or some Protestant believers, or to determine, authoritatively, the number of Sacraments. Therefore, the Governor is of opinion that when the time comes for the establishment of a large Common School, religious teaching ought not to be allowed to intrude. It is vain to say that there are certain elementary matters in which all Christians, leaving out the Jews, must agree. It is merely calling upon a man picked up at random, allured by a trifling salary, to do what the whole religious wisdom, feeling, and affection of the world has not yet done. The piling down of all expressions which a man on a hundred and fifty pounds a year may think disfigure the several religions, and the reducing them to a common standard, becomes a sort of Methodism which may locally be named after the Schoolmaster who performs it.

In a Colony with which the Governor was recently connected he left the following School system. There was a public School open to all denominations, where the School-master did not presume to open to the children any sacred mysteries. The charge upon the children attending regularly was half a dollar a month. But there were Denominational Schools, also, to which the Government contributed, but in a moderate degree. It was found that these Denominational Schools, though more expensive to the parents, absorbed the greater number of children. Such is the system he would desire to see in any concentrated community.

Great uneasiness was felt throughout Costa Rica on account of the cholera in Nicaragua.

A body of priests, of the order of San Francisco, who migrated to Costa Rica in November last, were expelled the country by the unanimous voice of the people, both native and foreign, who held meetings in San Jose and in a short time raised \$5000 to defray their expenses out of the country.

The coffee crop has turned out very large and will yield, it is calculated, 15,000 bushels, one half of which is already packed.

It is expected that a railway will shortly be made from Callao to Magdalena.

An expedition of Government sent to explore the Amazon has reported it navigable for nearly 3000 miles distant from Maicho.

Weather yesterday and to-day splendid.

PLACERVILLE, Feb. 24.—Owing to the late heavy storm in the mountains all the wires over the Sierras have been prostrated and snow is so deep in places that all communication within twenty miles of Placerville is entirely cut off. Snow was five feet yesterday, but too soft to permit of travel on snow-shoes. The guards tried to break the track on foot, but failed after working all day. We look for restoration of communication to-morrow. A strong force is out on the line repairing it.

COWLEY RIVER, Feb. 28.—The telegraph line is badly broken on Cowley mountain, on which snow lies five feet deep. With the aid of cattle, a trail was partially broken to-day, hope to complete repairs to-morrow.

## EUROPEAN.

LONDON, Feb. 21.—Suspension of the habeas corpus in Ireland is prolonged.

## DEATH.

In this City at the Mansion House, yesterday, James Woodward late of Williams Creek Cariboo, aged 50 years. A native of Armstrong County Penn. U. S.—Sacramento and Pennsylvania papers please copy.

The funeral will leave the Mansion House at 1 p.m. to-day, friends are requested to attend.

**HOLLOWAY'S OINTMENT AND PILLS.**—Glad Tidings.—Some constitutions have a tendency to rheumatism, and are throughout the year borne down by its protracted tortures. Let such sufferers bathe the affected parts with warm brine, and afterwards rub in this Ointment. They will find it the best means of lessening their agony, and, assisted by Holloway's Pills, the surest way of overcoming their disease. More need not be said than to request a few days' trial of this safe and soothing treatment, by which the disease will ultimately be completely swept away. Pains that would make a giant shudder are assuaged without difficulty by Holloway's easy and inexpensive remedies, which comfort by moderating the throbbing vessels and calming the excited nerves.

## EASTERN STATES.

WASHINGTON, Feb. 20.—It is understood that ex-Governor Thomas, H. Ford and Solomon Hineck have been retained as counsel for Surratt. The prisoner was yesterday delivered to the Marshall and asked by the latter if his name was John N. Surratt, he replied, "It is, Sir." Hitherto he has repeatedly denied his identity.

NEW YORK, Feb. 21.—World's special says the indictment against Surratt was so defective that it is said it had been quashed. A new indictment has been drawn, presenting him as accessory, and not as principal, in the murder of President Lincoln.

Portland, Maine, papers say that flour can be brought now quicker from California than from Chicago, owing to poor facilities for Western transportation. On Saturday, Feb. 18th they received a lot in forty days from San Francisco. The sacks were enclosed in gunny-bags.

In Philadelphia this morning, Geo. E. White, being put on trial for an attempted rape, was shot dead on the threshold of the Court room by the brother of the outraged girl.

**CALIFORNIA.**

SAN FRANCISCO, Feb. 24.—Rumors of sickness on the Isthmus having been received here by telegraph from New York, the Montana was overhauled by order of the Health Commissioner Elliott, on her arrival yesterday. It was found that no unusual sickness had occurred on board and she was allowed to come at once to the wharf, a clean bill of health being given.

A fire broke out last night in the pattern shop connected with the Miners' Foundry. The Fire Department, however, soon got the blaze under control, and kept it confined to the pattern shop until finally the flame was extinguished. The foundry is owned by Howland, Angell and King, and is one of the most extensive manufacturing concerns on the coast. Loss cannot be correctly estimated at present, owing to the fact that the shop was filled with patterns of every description, many of them very costly; and it is not known how many were destroyed. The proprietors had several large contracts for work which will probably be delayed for a short time owing to the destruction of patterns.

By the arrival of the Montana we have files of the Panama Star of Feb. 9th. An earthquake was felt in Panama on 29th January.

Great uneasiness was felt throughout Costa Rica on account of the cholera in Nicaragua.

A body of priests, of the order of San Francisco, who migrated to Costa Rica in November last, were expelled the country by the unanimous voice of the people, both native and foreign, who held meetings in San Jose and in a short time raised \$5000 to defray their expenses out of the country.

**NOTICE.**

**CODVILLE LANDING!**

**Important to Packers, Stock Drivers, and the Public in General.**

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter, on the most liberal terms. Large Reductions from the regular price made in favor of trains.  
Persons intending wintering their own stock can be accommodated with Hay in the stack, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.

The Ranch is situated on the opposite side of the Fraser from that of Sumass, is an island of miles long by 4 wide, is high and dry, no place where animals can mire, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.

James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.  
In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.

Horse covers, pack saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.  
AGENTS.—DIETZ & NELSON, New Westminster.  
A. BARLOW, Esq., Yale.

**ADVICE GRATIS!**

**HOLLOWAY'S PILLS**

**To Purify the Blood.**

These Pills have been placed by the common consent of mankind at the head of all remedies for removing venereal poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhoea, constipation, liver complaint, &c., avert attacks by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhalting influence of this medicine.

**Female Complaints.**

All disorders of the sex, and diseases in every organ, perilous to the life and health of woman, youthful maiden, married or single, may be radically and quickly cured without risk or trouble, by a few of these Pills, taken according to the printed directions.

**Indigestion with languor and want of energy.**

When taking these Pills, as Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side near the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

**DROPSY.**

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.
